

HEALTH AND SAFETY

Help Reduce the Spread of COVID-19 and Protect the Safety of Poll Workers and Voters!

VOTERS SHOULD:

- Remain 6 feet away from other voters and poll workers.
- Wear a cloth face covering.
- Use personal or provided alcohol-based hand sanitizer after transactions with poll workers or any voting device.

Make sure your hands are dry before or at any point while in possession of a ballot. Sanitizer can damage paper ballots and render them unreadable.
