The Board of Directors again agreed to use a third-party verification system of the B Impact Assessment and conducted its third assessment on 1.7.2021 for the calendar year 2021. The B Impact Assessment has changed and been updated which slightly affected our score. This year has seen minimal changes in our operations.

Pursuant to a general benefit corporation, CD3's Board of Directors continues the following mission and vision as the standard to which it operates:

*Mission Statement:* To develop technologies that empower people to reduce the spread of aquatic invasive species and safeguard local economies and the natural environment.

*Vision Statement:* Lead innovation of technologies that employ best in class behavioral and scientific solutions to prevent the spread of aquatic invasive species.

**Pursued Public Benefit:** CD3 Stations empower boaters with the tools to employ the best management practices of cleaning, draining, drying, and disposing of bait. These stations are designed to protect the environment by reducing the risk of spreading aquatic invasive species and thereby also safeguarding local economies. CD3 donated \$11,250 to Wildlife Forever to support education and outreach to help prevent the spread of aquatic invasive species.

**Hindered Public Benefit:** As a small corporation of two staff, we find ourselves lacking the capacity to improve some of the metrics outlined by the B Impact Assessment. This is particularly true regarding benefits. In addition, many of the questions in the assessment have seemed irrelevant to companies that are small, owner-operated start-ups. However, as our company grows, we hope to be able to increase our score in the future.
